Subject: Public Works and Sustainability Committee Testimony

Hello,

My name is Sophia and I am currently a student at Punahou school. I am strongly in favor of Bill #10 which bans plastic bags in Oahu, and I really hope that you pass it through to a public hearing. My family and I are all strongly in favor of banning plastic bags to help save our environment and our beautiful Aina. We need to have this bill in order to protect our amazing land and marine life. Plastic bags are really not necessary, and they take over 1000 years to biodegrade! I know that my family, friends and I are more than willing to make the change to reusable bags. This bill is just one step in the right direction to becoming the first plastic bag free state in the U.S! Please, don't kill this bill! Our island needs this bill if we want to continue to awe tourists and protect our wildlife.

Please pass this bill for our aina :)

Thank you for your consideration
~Sophia Krivatsy
